## Course Title

Final project workshop

## Prerequisites

Completion of at least one seminar paper.

## Course instructor

Prof. Vered Blass, Head of Program

## Project advisors

The advisors of the final project are academic staff members who are specially appointed for the specific guidance of the student.

The advisors will be assigned by the course instructor. The advisor does not have to be from the same field of the final project topic.

## Semester

Spring (B)

## Course goal

The overall purpose of the course is to guide the students of the International MA Program in preparing their final Master's degree project. The project is an academic assignment on a larger extent than a seminar work but smaller than a research thesis. The work is the final compulsory requirement for the degree studies beyond the other requirements of the courses. The purpose of the work is to analyze, to research and to develop an environmental issue, in the environmental field chosen by the student. Each student is required to formulate a research question or a problem with the relevant advisor that will serve as a starting point for the work and will guide the research direction carried out in the work.

## Final grade components

Final Grade of the course will be 210 - Participated and Fulfilled Course Requirements.

Grade of the final project –

Presentation in class (25%)

Written paper of the final project (75%)

Evaluation criteria for the final project presentation and for the written paper of the project are given in a separate document.

The **minimum grade** that qualifies recognition of the final project is 70.

The course is mandatory and students must attend **all** class meetings as detailed below.
